TECHNOLOGIES

Enabling Better
Healthcare

Compliant

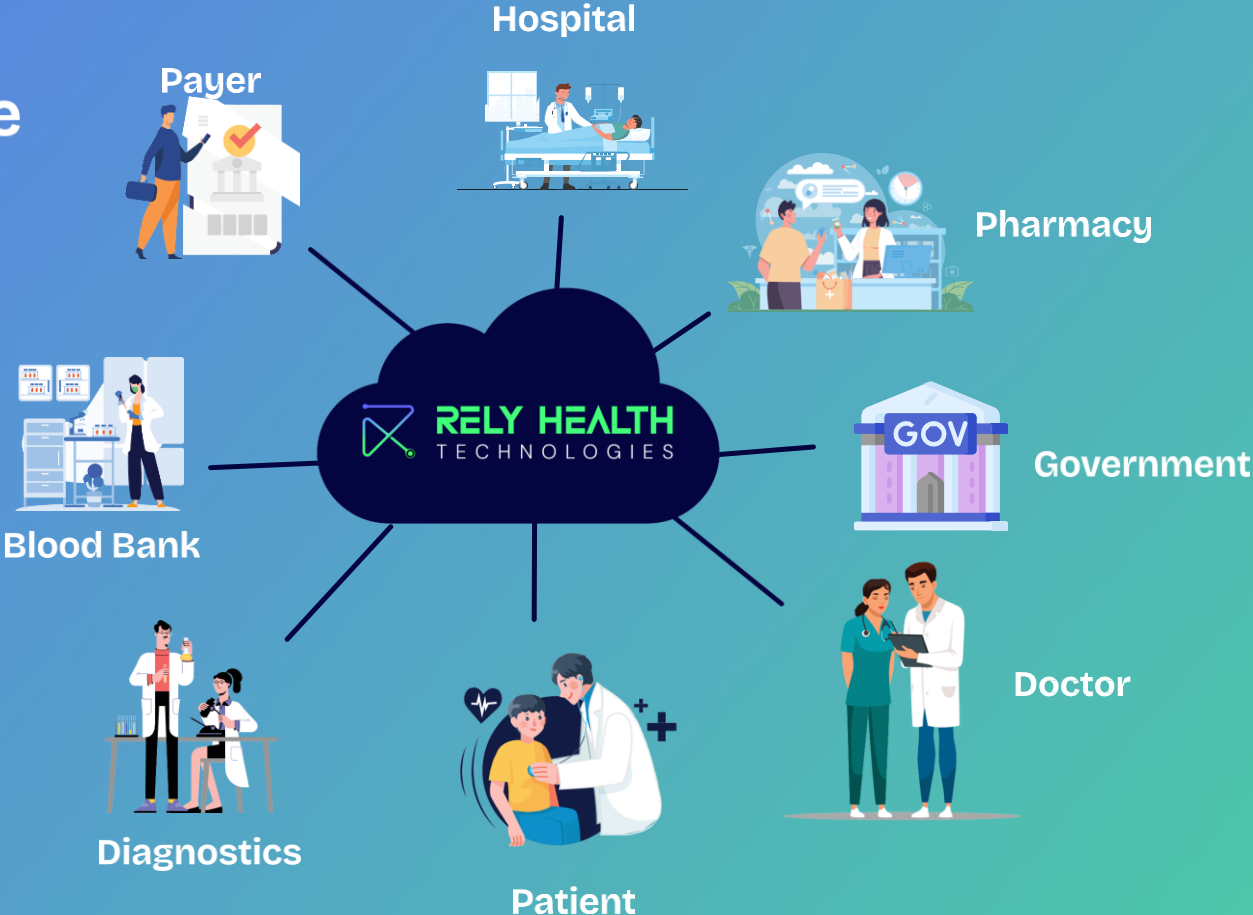

RELY AI Core — One Brain, 14+ Modules

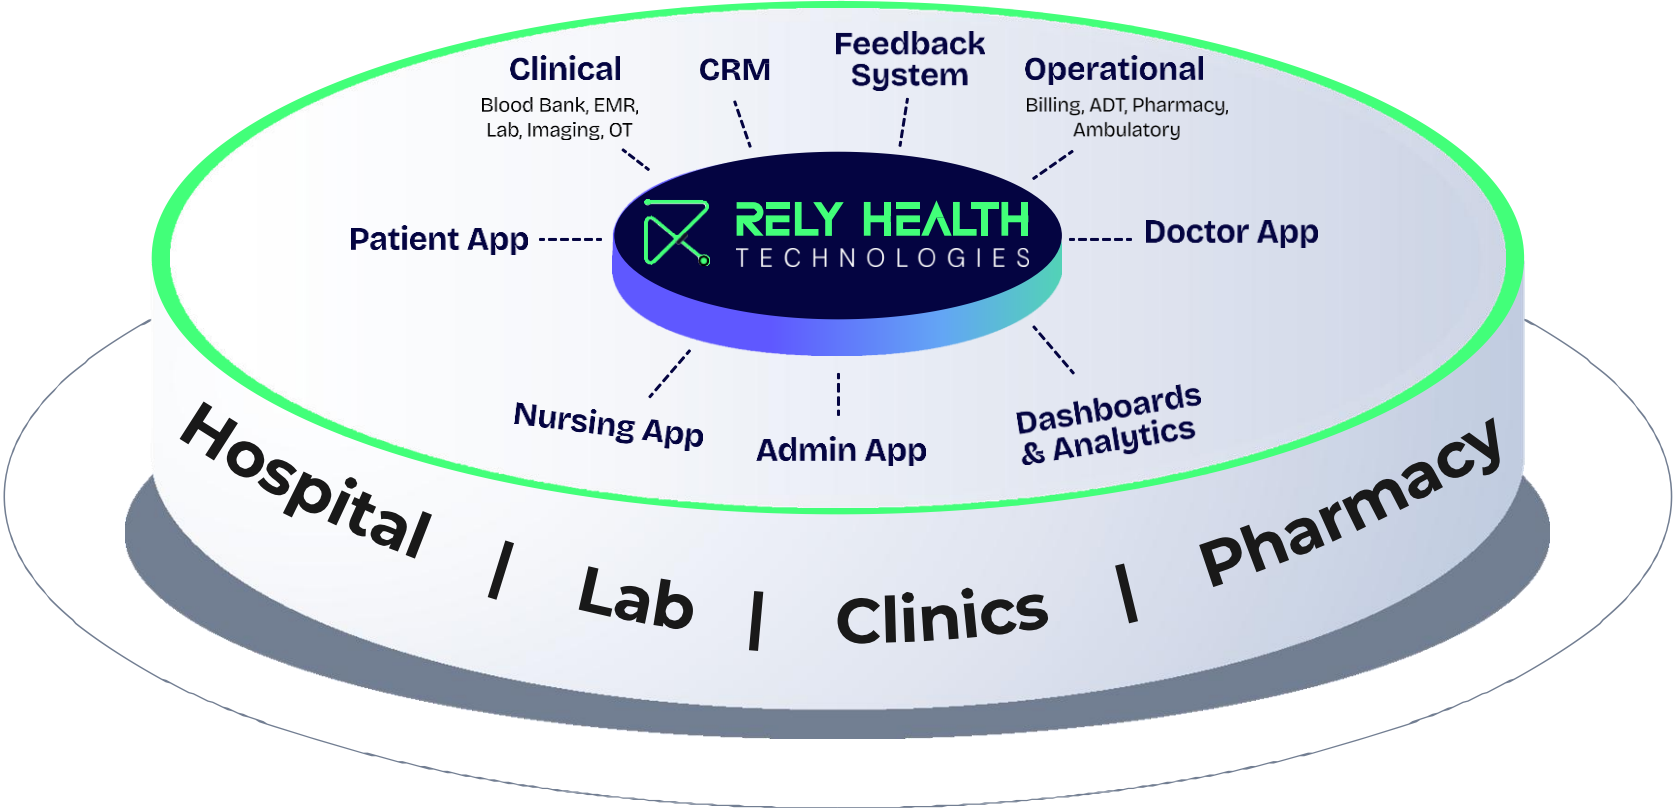

Every module is intelligently connected to the RELY AI Core — real-time data flows, predictive insights, and automated decisions across your entire hospital network.

Solutions for each & everyone

Healthcare Operating System

Doctor App

Live tracking of admitted and discharged patients

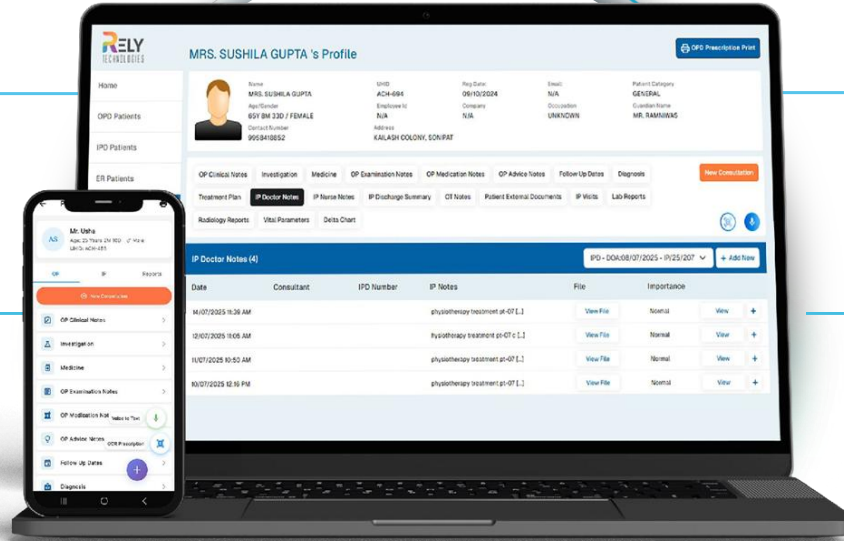

Seamless addition of IPD doctor notes with quick access to vitals and medication charts

Efficient medication management for IPD patients

Integrated lab and radiology reports with visual graphs

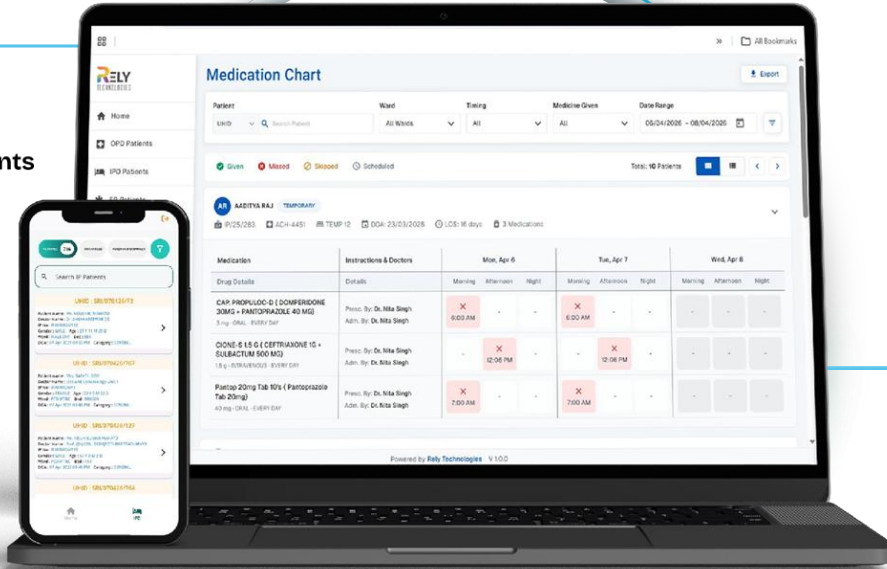

Smart OPD prescription creation with AI features like voice-to-text, OCR, and AI analysis

OT management with add and view functionality

Nurse App

Real-time view of total admitted and discharged patients

Instant access to lab and radiology reports

Easy entry of IPD nurse notes, vitals, and medication/set care

CMD App

Comprehensive dashboard
for patient statistics

Detailed financial insights
and revenue tracking

Real-time performance
monitoring for better
decision-making

Analytics Report for Management

Summary and detailed analysis of patient flow in organization

Yearly profit & loss comparisons

Revenue management and details

Striving towards business Excellence

Built for the realities of modern healthcare

Every feature is designed around the clinical and operational challenges that hospitals face every day

40% Reduction in wait times
Faster Patient Throughput

Reduce patient wait times by up to 40% with intelligent scheduling, automated workflows, and real-time bed management.

99% Medication accuracy rate
Zero Medication Errors

AI-powered drug interaction alerts, barcode verification, and e-prescribing eliminate medication errors at every step.

30% Increase in collections
Revenue Cycle Optimization

Automated billing, insurance claim processing, and real-time financial dashboards maximize revenue and reduce denials.

100% Compliance certified
ABDM & HIPAA Compliant

Fully certified under India's Ayushman Bharat Digital Mission and HIPAA standards, ensuring data privacy and regulatory compliance.

4 weeks Average go-live time
Rapid Implementation

Go live in as little as 4 weeks with our structured implementation methodology, dedicated project managers, and 24/7 support.

500+ Facilities deployed
Scalable Cloud Architecture

From single-facility clinics to multi-hospital networks — Rely scales seamlessly with your growth, on cloud or on-premises.

Go live in 4 simple steps

Our proven implementation methodology ensures a smooth transition with minimal disruption to your operations.

Discovery & Planning

We assess your current workflows, infrastructure, and requirements to build a tailored implementation roadmap.

Configuration & Setup

Our team configures the system to your hospital's specific workflows, departments, and clinical protocols.

Training & Go-Live

Comprehensive staff training, data migration, and a supervised go-live with our experts on-site.

Ongoing Support

24/7 dedicated support, regular updates, and continuous optimization to keep your system performing at its best.

Expanding Our foot print

Our Vision

To create a world where healthcare is intelligent, connected, and accessible to all

Our Mission

To build the most trusted and intelligent platform powering the future of healthcare

Business Insight

Extensive understanding of the business landscape and key stakeholders

Industry Expertise

Seasoned tech and healthcare professionals pioneering the new-age innovations.

Agile Methodology

A holistic approach to solution development and value delivery

Strategic Execution

Delivery capabilities spanning from ideation to execution

Co-Creation

A collaborative approach to solution development enabling the acceleration of change

Complementary Partners

Strategic alliances with leading software and cloud providers

RELY HEALTH

Ingredients

Rely Health Architecture

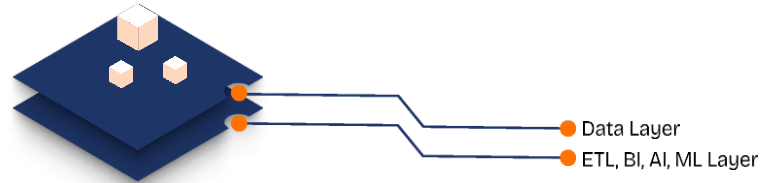

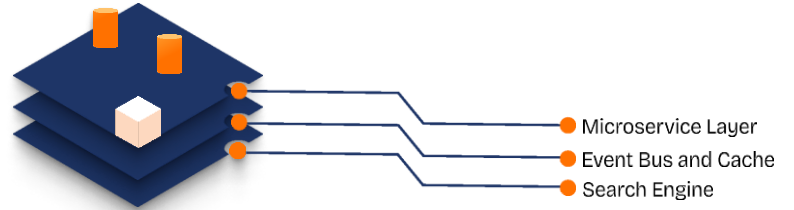

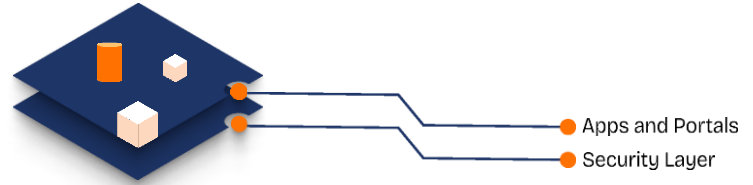

Microservices Architecture

Built for Security, Scale and Speed

HL7 + FHIR standards for Interoperability

Cloud and OS Agnostic

Modular Deployment Friendly

Committed to Success. Guided by Innovation.

RelyHIS in action

Take a look at some of our case studies to understand how Rely works cohesively and drives quantifiable results for care facilities.

Revitalizing care delivery at Jorhat Medical College and Hospital

The problem

Fragmented Healthcare System

- Long Patient Queues due to manual registration and poor scheduling
- Patient reports (lab, radiology, prescriptions) are scattered and hard to access

The way forward

Optimised workflows with customized implementation

- Digital registration, smart appointment system, real-time queue management and also integrated ABDM M1,M2,M3
- Centralized digital report repository with unified patient records (EMR)

The impact

40%
reduction in patient's
waiting time

56%
drop in administrative
workload

70%
appointments booked
via digital channels

Revitalizing care delivery at Jorhat Medical College and Hospital

The problem

Fragmented Healthcare System

- Discharge takes hours due to coordination gaps between departments
- Lab reports are manually handled, causing delays in reaching patients and doctors, especially during high test volumes

The way forward

Optimised workflows with customized implementation

- Streamlined discharge workflow with pre-final billing, automated summaries, and approvals
- Integration with a scalable Laboratory Information System (LIS) to automate workflows, handle high test volumes efficiently, and significantly reduce turnaround time (TAT) with instant digital report delivery

The impact

45%
reduction
in TAT

~1 day
cut in the avg.
length of stay

30%
increase in
annual revenue

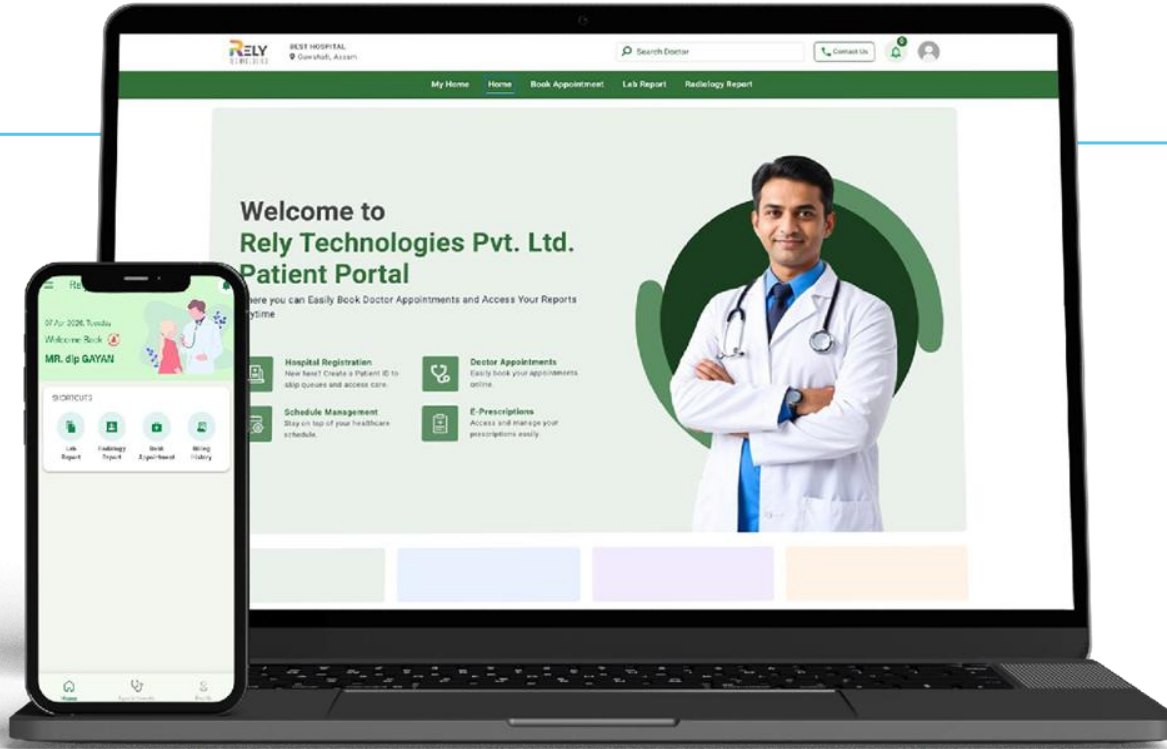

Rely Engagement

**Innovative solutions for
enhanced patient engagement**

Patient Portal and Patient App

Hospital Registration
Create a Patient ID to skip queues and access care

Doctor Appointments
Easily book your appointments online

Schedule Management
Stay on top of your healthcare schedule

E-Prescriptions
Access and manage your prescriptions easily

Our Happiest Clients

Private Hospitals & Clinics

Government & Private Medical Colleges

IVF Clinics

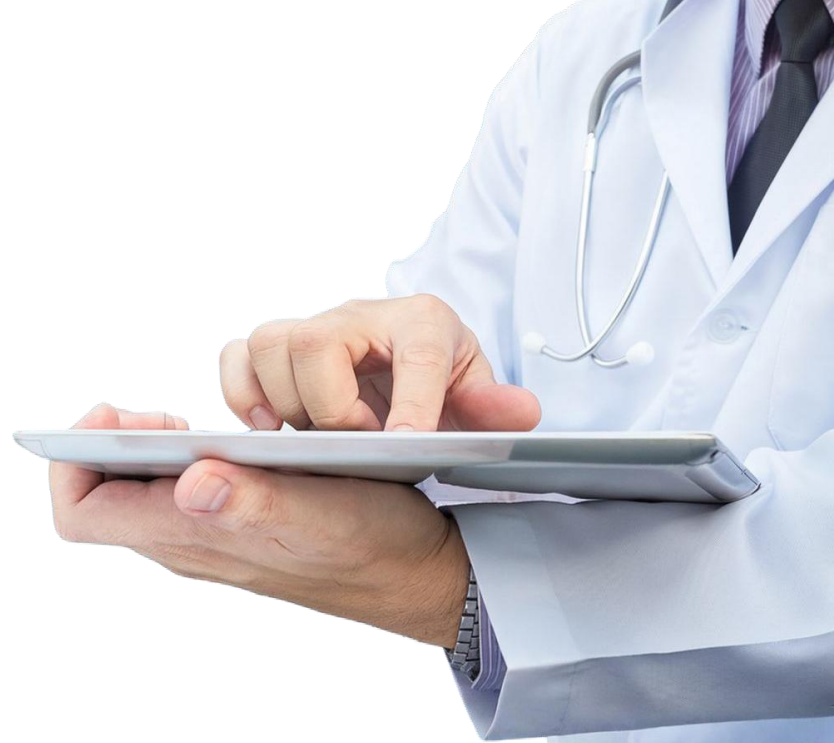

Diagnostic Centres
